**Triad Orchid Society  
meets the second Sunday  
of each month at the  
Greensboro Council of  
Garden Clubs Building  
on the campus of the  
Natural Science Center  
4301 Lawndale Dr.  
Greensboro, NC 27455  
at 1:00**

## **Repotting Time!!!**

Everyone enjoyed the repotting session that we had last year so we decided to do it again. We have acquired several compots from H&R and John Stanton at the Orchid Trail in Morrisville. These are nice plants ready to be potted up in individual pots. This is what members need to do for the program:

Bring eight to ten pots (2 or 3 inches in diameter) with you to put your plants in.

You will need a box or basket to load up your plants to take home with you.

If you have some extra name tags (stakes) please bring those. We have a few but they are limited in number.

TOS will provide the plants and the potting mix. So wear your work clothes and come have some fun with us as we repot some great plants.

## **Southern Ideal Home Show**

This year's TOS exhibit at the Southern Ideal Home Show was a colorful creation of a tropical Asian garden filled with gorgeous orchids in full bloom. The meandering path led past oriental stone lanterns to a central temple gong while bright Koi banners decorated the wooden screen backdrop. The eye-catching display of orchids included specimen Cattleya, Paphiopedilum, Dendrobium, Cymbidium, Miltoniopsis, Phalaenopsis, Phragmipedium, Oncidium and miscellaneous other genera donated by Jack Kepley, Ken Karb, Tammy Goldberg and Annette Hastie. The responses of home show visitors were "Wow", "Beautiful", "Fantastic", etc. Many stopped to photograph the display and more than 100 information flyers for the TOS were gone by Sunday afternoon. THANK YOU to all members who helped with initial construction, setup, donation of plants and decorative items, and finally in efficient take-down of the exhibit. This effort raises funds for programs and speakers throughout the year and everyone's help with it is greatly appreciated.

## Southern Ideal Home Show

## Show Table Rules

Orchid Member's Show Table is a great way to see orchids other members have grown and share growing tips and ideas. To encourage members to bring in plants, the society offers awards for the most and best plants brought in to show.

Members are separated into large and small growers. Members who have less than 200 plants in their collection are considered small growers and those members with 200 or more plants are large growers.

Members who are commercial growers are encouraged to bring their plants for educational purposes but are not eligible to acquire points and should display their fine plants on a separate table.

Show table plants must have been owned by the grower for a minimum of 30 days.

Plants may only be entered once for the specific bloom. Plant may be reentered when it blooms on new growth.

To gain points, members must register their plants on show table forms with legible handwriting and species column checked for an extra half point.

### Show Table Points

1<sup>st</sup> place = 5 points

2<sup>nd</sup> place = 4 points

3<sup>rd</sup> place = 3 points

Honorable mention = 2 points

Every plant brought in automatically earns 1 point with species plants earning an additional .5 point.

\*Best species = 15 points

\*\* Best specimen = 15 points

\*\*\* Best flower = 15 points

## March Show Table Results

### Cattleya Alliance

#### Species

1. C. intermedia Richman
2. C. intermedia 'Breckinridge Snow'  
Brogdon
3. C. intermedia v. orlata Kepley

### Small Hybrids

1. Epicat Don Herman Richman
2. Lc. Rojo Gleneerie Hanes
3. Bc. Lindleyana Spuller

### Large Hybrids

1. Lc. Rosie's Surprise Kepley

2. C. Henrietta Japhet           Kepley
3. C. Rita Renee x Lc. Orglade's Valentine  
James Curtis

### **Phalaenopsis**

1. Phal. Flora Gigi           Brogdon
2. Phal. Linda Cheek       Goldberg
3. Phal Sogo Lit-Angel      Goldberg

### **Paphiopedilum**

1. Paph Michael Koopowitz   Kepley
2. Paph. Master Jeweler     Kepley
3. Paph. lowii                A. Curtis

### **Phragmipedium**

1. Phrag Don Wimber x Mem. Dick Clements  
A. Curtis
2. Phrag. Granville         Kepley
3. Phrag. Acker's Twilight   Kepley

### **Dendrobium**

1. Den. aberrans           Goldberg
2. Den. teretifolium       Brogdon
3. Den. Micro Chip         Richman

### **Oncidium**

1. Acacallis cyanea x Blptm Midnight Blue  
A. Curtis
2. Psychopsis Kalihi       Spuller
3. Brsa. Orange Delight   Goldberg

### **Vandaceous**

1. Asco christensonianum   Goldberg
2. V. Bartholemew Martin Motes  
Kepley
3. Asctm ampulaceum       Spuller

### **Cymbidium**

1. Cym. Ming                Anglin

### **Miscellaneous**

1. Dendrochilum wenzelii   A. Curtis
2. Cyclopogon lindleyanus   Kepley
3. Gongora atropurpurea x claridora  
A. Curtis

### **Best Species**

**Dendrochilum wenzelii**      **A. Curtis**

**Best Specimen**  
**Den. teretifolium**              **Brogdon**

**Best Flower**  
**C. intermedia**                  **Richman**

**Note from Linda Thorne**

Thank you for making an orchid show for Seagrove Orchids possible this year. Your teamwork in orchestrating the entire orchid show for me with picking up the plants, setting up the sales area and representing me in a most positive way can not be expressed in words appropriately. I am very thankful and pleased to have such a fine local orchid society. I could have not been a part of the selling event had it not be for you. Thanks to all who had a hand in making a selling event happen for us even in my absence. I wanted to share my appreciation with all of you for being such tremendous friends of Seagrove Orchids. Happy Spring. Linda Thorne.
